Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a fluid transfer system having a cylindrical member and adapter that are used in combination, wherein the adapter has a cylindrical tube extending from a base, wherein the tube has a diameter slightly smaller than the first diameter of the cylindrical member, and the adapter further having a non-continuous circular wall with a cross-section smaller than the second diameter formed by adjacent sections extending from the base to encircle another part of the tube that is not fitted into a distal portion of the cylindrical member, in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
